

Candle Box Retail Display Solution

**FURNITURE
CRATES.COM**

The Candle Box is a new venture and was looking for a display solution that would be flexible, attractive and extremely functional. They found our crate shelving units online and built their solution themselves using the site. It was all delivered within 10 days.

*"We wanted our new shop to have more of a shabby chic feel than the normal slat wall, gondola type shelving. We came across a few websites offering shelving suitable for what we were looking for, but **furniturecrates.com** definitely stood out from the rest.*

The prices were good, as was the range of products but it was the ease of browsing the site and being able to build a unit to our specific requirements in terms of colour, size and style that really convinced us to buy. In addition the short lead times were also really impressive.

During the process, communication was good, with regular calls to me to double check details of our order and I was also really pleased to be offered the chance to have our logo put on the crates at no extra cost which looks brilliant. Delivery was arranged for a day to suit us and we were provided a 1 hour delivery slot on the day which again is really convenient.

On receiving the delivery we found one of our crates had been damaged in transit. I phoned to report the damage and the response was brilliant. No haggling over whose fault or insisting on seeing the damage. I was so pleased to be told that a replacement would be assembled and with me, freshly painted and printed within 3 working days, which again arrived bang on time!

The units are now fully installed (which took minimum assembly) and fully stocked and everyone is commenting on how fantastic they look. We are over the moon with the end product and we would definitely recommend these fittings to anyone."

Carly Griffiths, Owner
